THE WORLD OF STATES

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.From the GENERAL PREFACE. THE events of the present time have started much serious enquiry into the validity of our accepted institutions and our traditional habits of thought. Our conceptions of the State, of the Church, of the organisation of Industry, of the Status of Woman in the commonwealth, and of many other things have been directly challenged; and it is commonly acknowledged that a frank and thorough-going examination of our current postulates, political, religious, economic and social, is urgently called for. This series is intended to be a tentative contribution to the discussion of the problems thus raised. The writers of these volumes do not profess to have a complete philosophy of reconstruction; nor have they endeavoured to co-ordinate their thoughts into a coherent polity. They treat of matters upon which they are not all agreed; but they agree that Society should be organised with a view to the free development of all the finer interests and activities of men, and that such organisation must take account of local and spiritual differences. Apart from this general agreement, they have worked out their several theses independently and are severally alone responsible for the opinions expressed in the volumes published under their names. The volumes in the series will cover the main subjects relative to the function of the State. Those already planned will treat of the State in its relation to other states, to religion, to industry, to society, to woman, to the individual, to art, education and crime. * * * * * From the AUTHOR S PREFACE. IT may seem that world-politics is too vast and complicated a subject to he dealt with in a book...
